By Tapping on the Shadow Issues of the Lower 4 Chakras

Most spiritually-minded people focus on developing the upper 3 chakras by speaking their truth, cultivating intuitive abilities and connecting with the divine. However, most of the blocks to healing and success are in the lower chakras where our childhood traumas are kept hidden away in the shadows.

Emotional Freedom Techniques (EFT) can be used to clear these old stuck energies with specially-tailored tapping scripts developed for this purpose by Tapping into Wealth coach, www.margaretmlynch.com.

Larry Burk, MD, CEHP, is certified to teach this approach in 4 tapping sessions lasting 90 minutes each. If you complete the first 3 sessions for \$200 each the fourth session will be discounted to \$100 for this summer only. See the June 2017 newsletter at www.larryburkmd.com.
